

# OUTPUT OPF BST IMPLEMENTATION USING LINKED LIST

```
adding 8,4,12,2,6,19 into the tree:  
All nodes added to the tree
```

```
The inorder traversal of the tree is:  
2 4 6 8 12 19
```

```
Search function  
13 not found.  
6 found
```

```
Delete function  
deleting 4 from the tree:  
The inorder traversal of the tree is:  
2 6 8 12 19
```

```
deleting 8 from the tree:  
The inorder traversal of the tree is:  
2 6 12 19
```

```
deleting 6 from the tree:  
The inorder traversal of the tree is:  
2 12 19
```

```
bdeleting 12 from the tree:  
The inorder traversal of the tree is:  
2 19
```

```
deleting 22 from the tree:  
The number doesn't exist in the tree.  
The inorder traversal of the tree is:  
2 19
```
